

REVITAL PRODUCTIONS

Complete System Flows & Process Map

Every operational flow at Revital Productions, end to end — sales, onboarding, delivery, reporting, payments, revisions and offboarding.

SECTION 1

Sales Flow

Lead comes in

CRM → Leads List task created in ClickUp | Status: New Lead Not Yet Contacted

Hub → Client Intake Pre-Qualifier (when built) — research the lead before the call

Sales call | **Hub** → Discovery Call Script (when built)
Post-call score: Not a Fit / Possible / Strong Fit

If Strong Fit or Possible:
Hub → Proposal Calculator — fill in client details, services, price, term

Download Proposal PDF — send to client with SOW + MSA as a package

If no response — follow-up sequence:
Day 3 → Template #2 | Day 7 → Template #3 (value add) | Day 12 → Template #4 (expiry warning)

Client reviews → signs SOW + MSA → pays via Stripe payment link in proposal

CRM → Deals updated to Closed Won | **CRM** → Leads List updated to Won
Win/Loss Tracker task created in CRM

SECTION 2

Onboarding Flow

Deal marked Closed Won in ClickUp CRM

DAY 0 — same day as signing: Template #17 — Intake Form PDF sent to client (PDF contains Google Form button)

Client opens PDF → clicks Google Form button → fills out and submits Google Form online

Zapier fires automatically (within minutes):

Action 1: Internal notification email to account manager

Action 2: ClickUp Onboarding Handoff status → Intake Form Received

Template #17C — Intake Form Received Confirmation sent to client

DAY 1-2 — Red Flag Review: pull responses from Google Forms → Responses tab. Run Red Flag Checklist against all 10 sections. Log findings in CRM Deal record Comments. If flags found → notify leadership. Do not proceed until resolved.

DAY 1 — Hub Setup: Hub → Create new client profile + populate with intake form responses. Hub → Onboarding Checklist started (3 phases). Hub → Content Strategy Builder completed.

DAY 2 — Handoff: Sales → Delivery Handoff Form submitted in ClickUp (Growth → Onboarding Handoff list)

DAY 1-2 — ClickUp Setup: Go to Delivery Space → + New Folder → From Template → Name: [Client Company Name]

ClickUp does not support subfolders. Client folders sit directly under the Delivery space.

8 lists auto-created: Campaign Briefs, Content Calendar, Active Projects, Completed Work, Assets & Brand Files, Reports & Analytics, Recurring Deliverables, Client Feedback & Revisions

SECTION 2 (CONTINUED)

Onboarding Flow

Zapier fires (New Folder trigger — up to 15 min delay): 7 tracker tasks auto-created in Master Shared Links Tracker

Generate 6 shared view links → verify each in incognito → paste into Hub portal sections
Generate 2 form links → verify each in incognito → paste into Hub portal Quick Actions

Hub portal fully configured:
6 shared view links embedded | Submit a Revision Quick Action linked
Submit a Content Request Quick Action linked | Book a Call button set
Account Manager name + email + phone | Google Drive link | Loom video link (if recorded)

Hub portal URL generated → tested in incognito — all sections confirmed

Hub → Welcome Guide Generator: fill in client details + export Welcome Guide PDF
Template #8 — Welcome Email sent with Welcome Guide PDF attached

Template #10 — Kick-Off Call Confirmation sent

Kick-off call: Client Communication Policy (Part A) shared | Full Hub portal walkthrough
Guide & FAQ tab shown | Quick Actions demonstrated | Red flags addressed

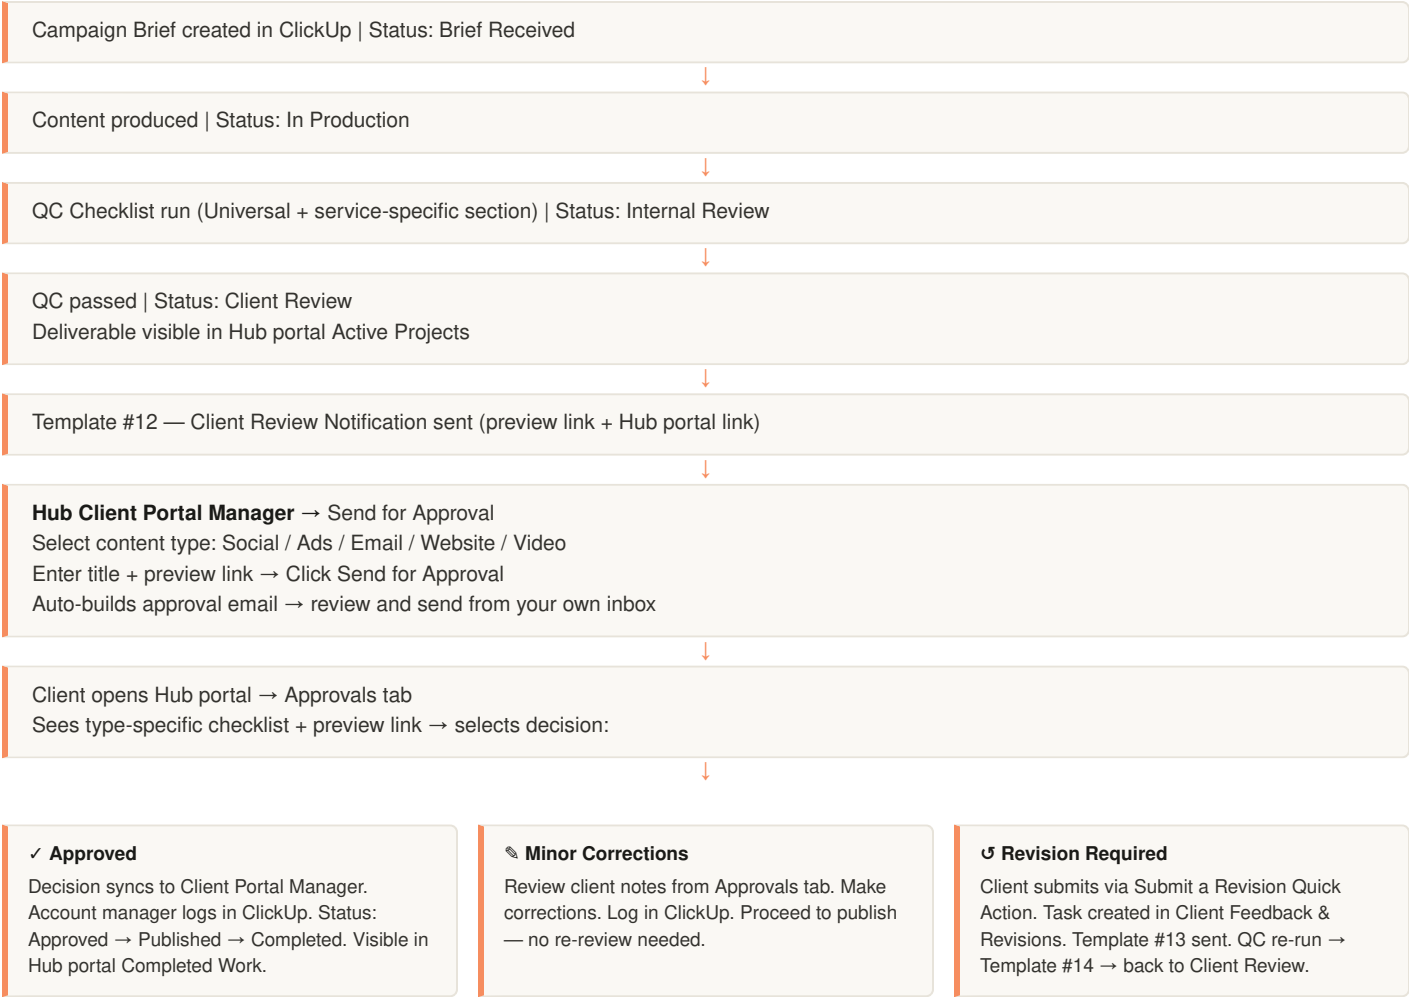

Hub → Initial audits run | **Hub** → Competitor analysis completed

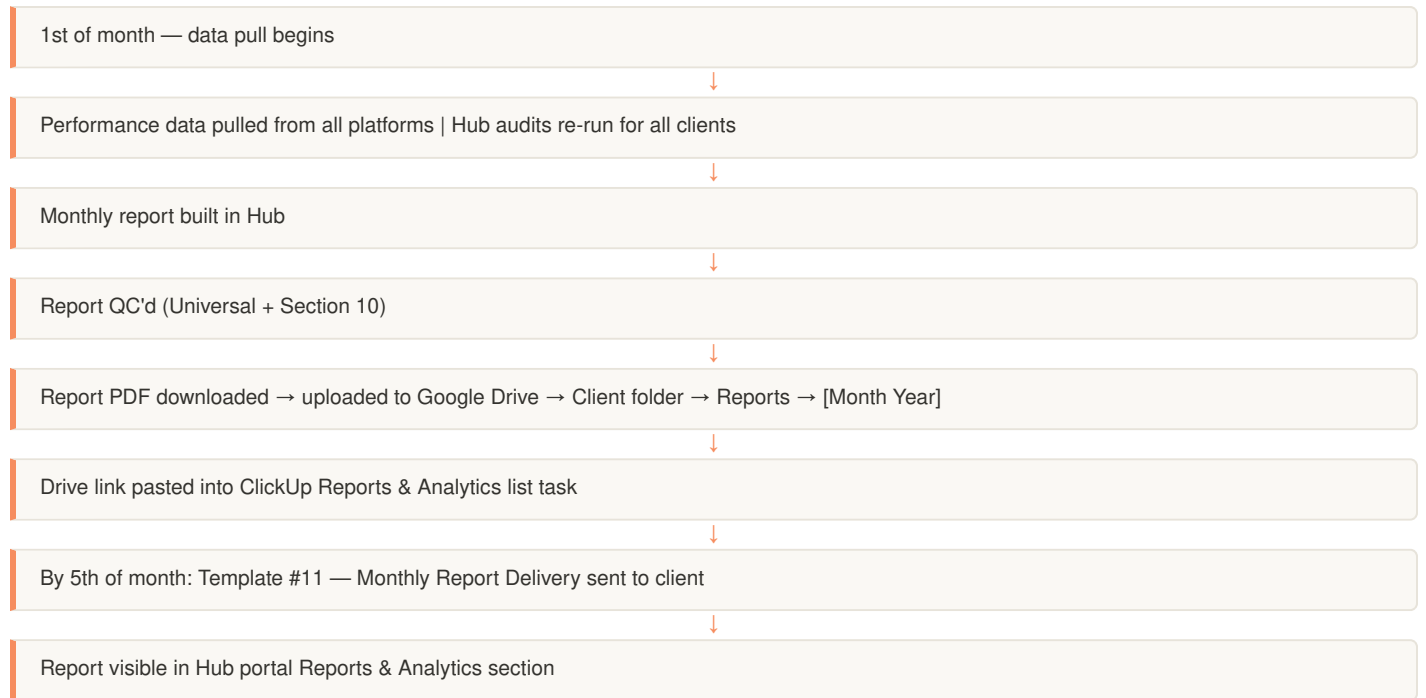

Onboarding Status → Active in CRM | Client Health → Green
Onboarding Handoff task → Complete

Content Delivery Flow

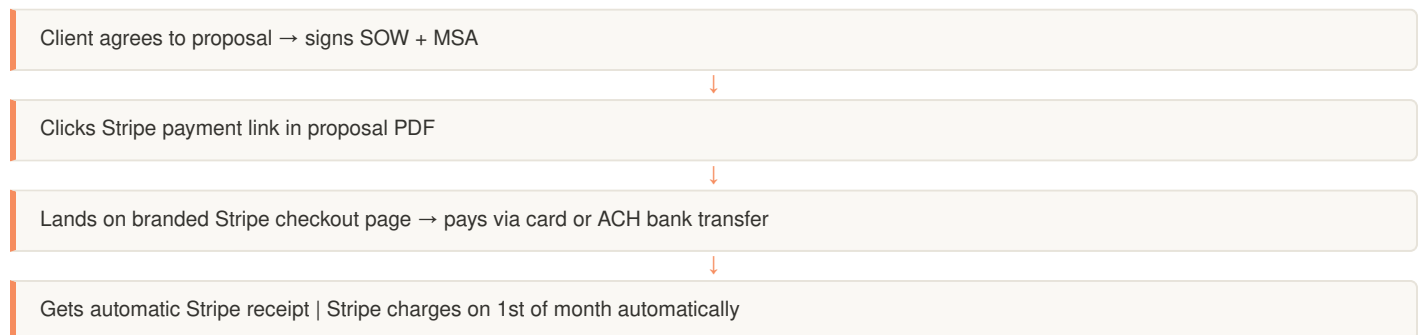

SECTION 4

Monthly Reporting Flow

SECTION 5

Payment Flow

If payment fails: Stripe retries Day 3, 5, 7, 14 | Client gets automatic failure emails

If all retries fail: services suspended | Account manager notified

Payment received → money deposits to bank within 2 business days
QuickBooks syncs all Stripe transactions (when upgraded to Simple Start)

SECTIONS 6 & 7

Client Revision & Content Request Flows

6. Submit a Revision

Client wants to request a revision → Opens Hub portal using their unique URL → Clicks Submit a Revision (Quick Action — sidebar)

Fills out revision form: which deliverable, service, what needs to change, urgency level, reference image (optional)

Task auto-created in ClickUp Client Feedback & Revisions list, Status: Brief Received → Template #13 — Revision Received Confirmation → Delivery team actions revision → QC re-run → Template #14 — Revision Delivered → Client reviews in Hub portal Approvals tab

7. Submit a Content Request

Client has a new content idea or campaign request → Opens Hub portal → Clicks Submit a Content Request (Quick Action — sidebar)

Fills out request form: what they want, why, timeline / deadline

Task auto-created in ClickUp Campaign Briefs list, Status: Brief Received → Account manager reviews within 2 business days → Scopes against SOW → If in scope, added to production queue → If out of scope, Change Order sent to client

SECTION 8

Offboarding Flow

Client gives notice or contract end date arrives

Deal Onboarding Status → Offboarding in CRM
Early Termination Agreement issued if applicable | Written confirmation of last day

Final Hub audits run — scores exported and compared to onboarding baseline

All in-flight deliverables completed or cancelled | Client notified of any cancellations

Platform access transferred back to client | All Revital team access removed
Access removals logged in Access & Logins Tracker

Hub portal deactivated — client can no longer log in

Final performance report built in Hub → QC'd → delivered via email
Uploaded to ClickUp Reports & Analytics

CRM cleanup: Deal → Closed Won or Inactive | Inactive Reason logged
Client delivery folder archived in ClickUp | All 7 tracker tasks → Archived status

Template #16 — Offboarding Final Email sent | Review request sent with direct link
90-day re-engagement reminder set in CRM | Win/Loss Tracker task updated

Zapier Automation Flows

ZAP	TRIGGER	ACTIONS
Zap 1 Intake Form Submitted	New Google Forms response (Client Onboarding Form: Marketing Services)	Action 1: Email notification to account manager with client details + next steps. Action 2: Update ClickUp Onboarding Handoff task Status → Intake Form Received
Zaps 2-8 New Client Folder	New Folder in Delivery space (fires up to 15 min after folder creation — one Zap per list type)	Creates one tracker task per Zap in Master Shared Links Tracker: Zap 2 Campaign Briefs Zap 3 Content Calendar Zap 4 Active Projects Zap 5 Completed Work Zap 6 Assets & Brand Files Zap 7 Reports & Analytics Zap 8 Client Feedback & Revisions. Each task pre- filled: List Name, Link Type, Folder ID, Date Generated, Status: Pending, Verified: False

Tool Map — What Lives Where

TOOL	WHAT IT DOES
Revital Hub	Proposal Calculator, Intake Generator, Welcome Guide Generator, Client Portal, Client Portal Manager, Content Approvals, Content Strategy Builder, Audits (Social, SEO, UX/UI), Competitor Analysis, Monthly Reports, Email Signature Gen, Discovery Call Script (coming), Pre-Qualifier (coming)
ClickUp	CRM (Deals, Contacts, Companies, Leads), Delivery folders & lists, Master Shared Links Tracker, Onboarding Handoff, SOPs & Internal Processes, Email Templates, Win/Loss Tracker, Sales Call Checklist, Objection Handling Guide
Stripe	Payment processing, recurring billing (1st of month), failed payment retries (Days 3/5/7/14), customer portal, 6 template payment links
Zapier	Google Forms → ClickUp automation (Zap 1), New Folder → tracker tasks (Zaps 2-8)
Google Forms	Client intake form — button embedded inside Hub Intake Generator PDF
Google Drive	Client asset storage, monthly report file delivery, linked in Hub portal Google Drive field
QuickBooks	Accounting, income/expense tracking, 1099 contractor filing — upgrade to Simple Start pending for Stripe connection
Gmail	All client and prospect communication via 17+ email templates documented in ClickUp Email Templates doc
Loom	Client onboarding video walkthrough — URL pasted into Welcome Guide Generator → auto-added to page 1 of Welcome Guide PDF
