

REVITAL PRODUCTIONS

E-Signature Setup Guide Dropbox Sign (HelloSign)

A 30-minute setup walkthrough for adding legally binding e-signatures to the contract signing flow.

Overview

FEATURE	DETAILS
Cost	\$15/month — Essentials plan
Signatures	Unlimited — no cap as you grow
Google Drive	Native integration — signed docs auto-save
Setup Time	30 minutes
Client Experience	No account needed to sign — one click from email
Legal Standing	Legally binding in all 50 states + audit trail
Hub Calculator	Keep as-is — HelloSign only handles signatures

Updated Contract Signing Flow

Once HelloSign is set up, your signing process becomes:

STEP	ACTION	TOOL
1	Build proposal in Hub Proposal Calculator	Revital Hub
2	Download Proposal PDF	Revital Hub
3	Open HelloSign → Use Template → SOW Template	Dropbox Sign
4	Enter client name and email → Send	Dropbox Sign
5	Repeat for MSA Template	Dropbox Sign
6	Client signs both digitally from their email	Dropbox Sign
7	You countersign — both parties get signed copies	Dropbox Sign

Setup Steps — 30 Minutes Total

8	Signed docs auto-save to Google Drive → Contracts & Legal	Google Drive
9	Confirm first Stripe payment received	Stripe
10	Begin onboarding — send intake form	Gmail + Hub

Step 1 — Create Your Account (\$15/month, 5 min)

- 1 Go to sign.dropbox.com (HelloSign is now Dropbox Sign)
- 2 Click Try for free
- 3 Sign up with your @revitalproductions.com Google account
- 4 Upgrade to Essentials — \$15/month (skip the free trial — only 3 signatures free)

Step 2 — Connect Google Drive (5 minutes)

- 1 Go to Settings → Integrations
- 2 Find Google Drive → click Connect
- 3 Authorize with your @revitalproductions.com Google account
- 4 Set default save folder to: Revital Productions → Contracts & Legal
- 5 Every signed document now auto-saves to Drive automatically

Step 3 — Build Your SOW Template (10 minutes)

- 1 Click Templates → Create Template
- 2 Upload your SOW PDF (export from ClickUp)
- 3 On the signature page, drag these fields: Signature, Date, Full Name → assign to Me (Revital Productions); Signature, Date, Full Name, Title, Company → assign to Signer 1 (Client)
- 4 Name the template: Revital Productions — SOW Template
- 5 Save

Finish Setup & Test

Step 4 — Build Your MSA Template (5 minutes)

- 1 Same process as Step 3
- 2 Upload MSA PDF → add same signature fields
- 3 Name the template: Revital Productions — MSA Template
- 4 Save

Step 5 — Test Everything (5 minutes)

- 1 Click Use Template → select SOW Template
- 2 Enter your own email as the client signer
- 3 Send it to yourself
- 4 Sign it as the client from your email
- 5 Then countersign as Revital Productions
- 6 Confirm the signed copy auto-saves to Google Drive
- 7 If everything works — you are ready to go

After Setup — Update the Contract Signing SOP

Once HelloSign is live, update the Contract Signing Process SOP in ClickUp:

- Replace Section 4 manual signing instructions with the HelloSign workflow
- Remove the print/sign/scan instructions
- Update Section 6 filing process — signed copies now auto-save to Drive
- Update the Contract Signing Checklist at the bottom of the SOP

Or just tell Claude "HelloSign is set up — update the Contract Signing SOP" and it will be done in 5 minutes.

E-Signature Tool Comparison

TOOL	COST	BEST FOR	COMBINE WITH HUB?
Dropbox Sign (HelloSign)	\$15/mo	Small agencies — simple, unlimited, Google Drive sync	Yes — recommended
DocuSign	\$15-45/mo	Most recognized brand — enterprise clients	Yes
PandaDoc	\$19/mo	Proposal + signature in one tool — replaces Hub calculator	Would replace Hub
Adobe Sign	\$14-23/mo	If already using Adobe Creative Cloud	Yes
signNow	\$8/mo	Budget option — basic functionality	Yes

PandaDoc would replace your Hub Proposal Calculator — not recommended. Your Hub calculator is more powerful and purpose-built for your agency. Keep the Hub for proposals and use HelloSign just for signatures.
