Website & Branding Packages

A clear pricing structure for website, branding and complete brand projects — priced in US dollars.

Website & Branding Packages

Below is the pricing structure in US dollars. Each package is designed to be clear, flexible and easy to scale depending on the client's needs.

PACKAGE	STARTING PRICE (USD)	BEST FOR
Basic Website	\$700	Clients who already have their branding and content ready.
Branding + Website	\$1,400	New or growing businesses that need a cohesive identity and online presence.
Complete Brand Package	\$2,100+	Businesses that need strategy, branding, a website and launch-ready assets.

All prices are starting points. Final pricing depends on the number of pages, the amount of content, functionality, revisions and the overall scope of the project.

Converted from the original CAD pricing (CA\$1,000 / CA\$2,000 / CA\$3,000+) at approximately 1 CAD = 0.71 USD, rounded to the nearest \$100 for clean presentation. Exchange rates move daily — treat these as a reference point, not a locked rate.
