Flagship Package Shortlist

What's ready to pitch first, pulled from the live
Service Pricing Admin catalog.

ABOUT THIS DOCUMENT

Pulled From the Live Catalog

Pulled from the live Service Pricing Admin catalog (proposal-calculator/js/service-catalog.js) — all prices below are the catalog's **default** suggested prices, not confirmed overrides. Treat the numbers as a starting point to sanity-check against real overrides in Service Pricing Admin before pitching.

Important Finding First

The service catalog had no dedicated video/production line item — despite that being the actual core differentiator ("AV production company that specializes in marketing"). The only video-adjacent entries anywhere in ~90 services were "Reels & Short-Form Video" (\$400/mo, filed under Organic Social) and "Ad Creative Production" (\$300/mo). **Update: a Video & Production category has since been added** (Half-Day Shoot \$750, Full-Day Shoot \$1,400, Brand Video Package \$2,800, Live Event AV Package \$1,200, Video Editing \$450) — starting defaults grounded in 2026 small-team market rates, priced toward the low end to match this catalog's existing positioning. Adjust via Service Pricing Admin once real project costs are known.

Shortlist (From What's Already Priced)

1. Brand Foundations Package	Setup fee — ships immediately
Brand Strategy Session (\$300) + Primary Logo Design (\$600) + Color Palette & Typography System (\$200) + Brand Style Guide (\$400)	\$1,500 setup
Good first-engagement offer — fully priced already, no new catalog work needed, and a natural on-ramp into a bigger retainer once trust is established.	
2. Social Growth Retainer	Monthly
Feed Posts (\$350) + Reels & Short-Form Video (\$400) + Stories (\$150) + Community Management (\$250) + Content Calendar Management (\$200)	\$1,350/mo
The clearest recurring-revenue flagship — every line is already priced, and it's the easiest "yes" for a brand that just wants a steady social presence without hiring in-house.	
3. Marketing Audit & Roadmap	Mixed setup/monthly — low-commitment first step
Marketing Audit (\$600 setup) + Brand Positioning (\$400/mo) + Marketing Roadmap Development (\$500 setup)	\$1,500 setup + \$400/mo

The foot-in-the-door offer — cheaper and lower-risk than committing to a full retainer, and it naturally produces the deliverable that justifies the bigger pitch afterward.

4. Local Visibility Package	Monthly
Local SEO / Google Business Profile (\$450/mo) + Google Search Console Management (\$150/mo) + Rank Tracking & Reporting (\$150/mo)	\$750/mo
The exact service the Google Business Profile checklist doubles as delivery methodology for — worth pitching once Revital's own listing is optimized and can be pointed to as proof it works.	

5. Paid Social Launch	Setup + monthly
Campaign Setup & Management (\$500 setup) + Meta Ads (\$600/mo) + Ad Creative Production (\$300/mo) + Budget Management & Reporting (\$150/mo)	\$500 setup + \$1,050/mo
A heavier commitment — good as a 5th option once the first four are converting, not a starting pitch.	

Recommendation

Lead with #1 (Brand Foundations) and #3 (Marketing Audit & Roadmap) as the two lowest-friction first engagements, with #2 (Social Growth Retainer) as the natural next step once trust is built. Hold #4 until the Google Business Profile checklist work is actually done and provable, and treat #5 as a later-stage offer once there's more delivery capacity confirmed in Team Roster.

None of this replaces finishing the pricing pass across the rest of the catalog per the Business Phase Roadmap's own Phase 1 step 5 — this is just the shortlist of what's ready to pitch first.
